2. Regional Conference Santiago, Chile , 2011

Climatology sections organized during Regional Conference in Santiago covered the topics:

- Urban Climatology
- Urban Climatology and climate change
- Agroclimatology and Climatology Methods
- Regional Climate
- Climate change
- Climate change, urban areas and health

About 25 presentation were given altogether by participant from mainly Latin American countries (Brazil, Chile, Mexico) but also from Spain, China, Russia and India.

The climatological sessions were organized by Prof. Dr. Francisco Mendonça, Departamento de Geografía, Universidad Federal de Paraná, Curitiba, Brazil (a member of Commission on Climatology) and Prof. Dr. Hugo Romero, Departamento de Geografía, Universidad de Chile (Local Organizer).

The sessions unfortunately had very few participants. About seventy per cent of the approved works have been presented. As Prof. Francisco Mendonça was the only committee member who was present none official CoC meeting was arranged in Santiago.

3. Others

Corresponding Members

We kindly remind and ask every Commission on Climatology Full Member to prepare the potential list of Corresponding Members: people who are interested in cooperating in the frame of CoC, who find the CoC activities important and have the possibility and – what's more important – desire to sustain the international research cooperation and studies on the field of climatology, encourage the exchange of relevant documents and information and organize conferences or meetings. We would try to involve all the people to meet together in Cologne to discuss further perspectives and plans for CoC activities.
